

Q1 MODERNIZE CURRICULUM

Ottawa-Carleton District School Board
Building Brighter Futures Together @OCDSB

Q1 What are some things that the OCDSB is doing well to support learning and well-being?

Fighting back against the ridiculous rollback of sex ed content to the 1990s.

The board is pushing to uphold the modern sex-ed curriculum despite efforts by the new Conservative government to revert back to outdated material. The old material is discriminatory and does not help promote positive health image.

Modernized sexual education We live in a different world that like it or not is overly sexualized. Sexual education needs to reflect the issues the current generation will face.

Not much. Kids are really behind in writing, reading and math! Maybe OCDSB should consider from 1985 curriculum?!? It's important because children are still counting on their fingers in grade 6. I consider this a big problem!

S8x education and relationship education (before the provincial election changed it) Risk avoidance: Disease risk; abuse risk; online manipulation risk

Taking Health and Sex ed seriously. Please fight Doug Ford's meddling with the curriculum We can't afford to disregard issues because they make some people uncomfortable. Ignorance is the opposite of education.

Healthy bodies and relationship education. I was so proud to be part of a school board that is trying to stand up to the government who rescinded the new curriculum.

resisting the discriminatory, cruel and ignorant policies of the provincial government vis a vis sexuality, gender, health and relationship education going back to ignorance and secrecy is the anti-thesis of education

Proud to see OCDSB supporting responsible education in spite of a provincial ministry that remains stuck with its head in the sand.
