

Q1 RESOURCES

Ottawa-Carleton District School Board
Building Brighter Futures Together @OCDSB

Q1 What are some things that the OCDSB is doing well to support learning and well-being?

ODSB is doing a fair job but resources seem tight. It is important because resources help students learn and feel well.

Elementary Parents and Guardians - 2

Access to diverse resources Literature, etc., that reflects students interests, levels, needs.

Online access to materials through manageback is great. I think more online access to support and text material would be helpful. Students have more autonomy when they have access to materials at home and have clear direction on assignments and rubrics at their fingertips.

They're providing supplies. Some people can't afford supplies themselves, and considering it's not a choice whether or not we go to school, it only makes sense to not pay extra.

Need to be able to use a printer to print off as many pages needed 4 school. There needs to be more places on each level to print. Not just the library We can print in the library, but it's small and it takes long. We used to be able to print in resource on the cloud but not anymore. Why? Need printers!

Most resources are available for students to use and learn. It may not be the best, but it is available and ready to use. Needless to say, how can you work without the tools you need?

I appreciate having resources to share between staff and departments. There is very little in the means of resources and materials accessible to us. I appreciate what I can use rather than spend my own money.

Elementary Staff
