I appreciate the inclusion of visits to forest school - or at least field trips out to local woods. This is being done at our school.

Children need more time outdoors and in nature, they need time to explore and use their imagination. Not all children can sit at a desk all day.

Offering opportunities for field trips and guest speakers is very helpful in supporting learning and opportunities for experiential learning is huge. Students need to get out of the classroom and see the learning they are doing applied in the real world. Field trips offer chances for bonding too.
