My school is small and welcoming and think the small class size helped my daughter achieve success. small classes are important so that kids don't fall between the cracks. My child is not a squeaky wheel, yet she gets lots of grease.

I'm not sure I can answer this question. I am also teacher in our board and I'm having difficulty finding things that I'm happy with. We need smaller classes. The needs of all our kids are increasing and we do NOT have the man power to teach well. We manage behaviours and that's sad.

Kindergarten classrooms are too large. 30 four and five year olds is too much . It is not productive. It is like a daycare without learning.
