

Q2 SPORTS

Ottawa-Carleton District School Board
Building Brighter Futures Together @OCDSB

Q2 What are some ways that the OCDSB could improve how we support learning and well-being?

Children need more opportunity to participate in team sports, regardless of athletic ability School sports should be accessible to all children, not just accessible to the ones who make competitive teams

Schools should promote physical fitness for all Especially at the primary level, sports should be all inclusive. Not making the team shouldn't be a thing.

Having a diverse selection I feel like schools should offer something for everyone. They should not be totally academic based with no sports but should not be all focus on sport

Intramurals. I realize this isn't really the OCDSB's choice, but I feel like sports teams are only for the GOOD people. But what if you are bad and still want to play sports?

Sports teams aren't always fair Giving people chances over others because they usually don't get involved at school/ not enough tryouts/ boys team coach better than girls team coach

Lower cost for sports teams It cost me more than \$200 to play on my schools rugby team with a team jersey. Not all students can afford to get involved in sports.

Sports during lunch or after school, create partnerships with local gyms and business to bring programs to students. Teach students life skills Students need the hands on experience so that they are well prepared for life and adult responsibilities when they graduate

Allow for more sports opportunities at the high school level for rec league level kids Too much focus is put on the high performers. It would be great to get ALL kids more active, not just the elite level.

Lack of elementary sports clubs. Worse, is favouritism in selecting the same students for school sports teams, reducing no. of students benefiting At this age we should be encouraging interest in sport, by developing their skills in a supportive environment, and enjoyable team experience.

More emphasis for sports, especially for females. Need to have qualified teachers to coach sports teams to keep kids (especially girls) engaged.

More sports and extracurricular activities
More focus of physical fitness to encourage healthy habits
