Building Brighter Futures Together @OCDSB

Q2 What are some ways that the OCDSB could improve how we support learning and well-being?

I think you could make an effort to encourage more guests to speak at schools. I remember a few influential speakers in my school time but I hope going forwards there are more.

More clubs/groups. All students need to express themselves. With the involvement in clubs, they could truly be themselves.

I feel that, perhaps, we could have additional extracurricular classes for those who would like to try extending their learning abilities.

Personally, there are some classes I feel I would like to put more time into, simply to get better and learn more than I already knew!

There should be more school clubs for those who have interests beyond sports. At the school I'm attending, there are no art clubs. There is dramatic theatre however that is for the purpose of putting on a performance.

Introduce positive events that are not weighed down by major issues/themes. Fun for fun's sake, joy for joy's sake. We are burdening student with endless issues, from mental health to sexual orientation. We need to balance that with life fun.
