

Q2 TRANSPORTATION

Ottawa-Carleton District School Board
Building Brighter Futures Together @OCDSB

Q2 What are some ways that the OCDSB could improve how we support learning and well-being?

When there is clearly a snow day + the weather is too cold (-38 degrees) + impossible to walk in --> option for students to go to school Safety is number one, if the weather is too brutal for the yellow school bus and is cancelled, then it's brutal for high school students as well.

Students Grades 9 to 12

4.0 ★★★★★ (14 👤)

presto passes for transfer students we have to travel further than others, and especially for schools like Lisgar, the distribution of passes is weird.

Students Grades 9 to 12

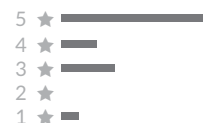

3.9 ★★★★★ (19 👤)

Snow days Students should not be expected to come to school when buses have been cancelled. It's simply cruel.

Students Grades 9 to 12

3.8 ★★★★★ (14 👤)

More funding for student transportation or looking at cheaper alternatives for field trips or sporting event where possible The rising cost of transportation is meaning some students are being marginalized - consider using cheaper options like OC transpo to move students

Secondary Staff

3.7 ★★★★★ (17 👤)

Transportation Many students on the Barrhaven side need to worry about OCTranspo every single day. Fixing these problems would bring a weight off students and parent

Students Grades 7 to 8

3.7  (11 )

The OCDSB should use school buses to pick up and drop off students instead of public transit Because the public transportation is slow and unreliable and some people have to use multiple buses to get to school. It would save time and money
